

“I’ve got this download card, but now what?”

No prob! Here’s how you can redeem your MP3 download card, or buy MP3s directly without a card code.

When you click on the “Buy” or “Buy/ Redeem Card Code” button in the 09 Singles box, it will make this screen pop up:

You now have two options. You can: 1) Enter your 16 character code in the blank space, hit “next”, and choose which MP3 album you would like to download.

Or you can: 2) Click on this link, which will allow you to buy MP3s directly using your credit card instead of a download card.

Hope this helps! Happy listening!
